

SPRING 2021 CLASSES

Hybrid Class Offerings

Hybrid classes require at least one on-campus/face-to-face meeting. Hybrid classes are classes where there is a carefully planned blend of both traditional classroom instruction and online learning activities. There will be some online class instruction hours and/or requirements that you need to do outside of class. Instructor's contact information can be found at: www.reedleycollege.edu, maderacenter.com, or oakhurstcenter.com.

Online Class Offerings

All State Center Community College District students are provided a free electronic mail account. Students enrolled in online classes are required to use this email account. Students must check their Canvas account by the first day of the semester. Failure to do so may result in the student being dropped from the course. Instructors may also require one or more face to face meetings. Please contact your instructor for more information. Instructor's contact information can be found at: www.reedleycollege.edu.

Fully Online Classes (no on-campus meetings)

Fully online classes are classes offered as either asynchronous or synchronous.

- *Asynchronous sections do not require any face-to-face meetings.*
- *Synchronous sections require face-to-face online meetings*

Emphasis is placed on the fundamentals of composition and the ability to handle materials. Students will learn basic color theory, value, line, shape, texture and techniques including direct paint application, glazing, brush strokes and impasto. Issues concerning canvas stretching, brush cleaning, mixing glazes and toxicity are addressed. Through lecture and studio practice, students gain introductory skills in painting within the context of an historical perspective.

BIOLOGY

BIOL 2 ENVIRONMENTAL SCIENCE (4 Units)

This introductory course examines the earth as an ecosystem composed of biological, chemical, and physical processes, with an emphasis on human impacts. Topics will include the structure and function of ecological systems, air and water pollution, pesticide use, waste disposal, climate change, natural resource use, and environment laws. Students will gain an understanding of how humans influence natural environments while focusing on sustainable practices. Basic chemical, physical, and geological processes will be introduced to better explain these topics throughout the course. Class field trips will be taken.

EDUCATION

EDUC 10 INTRODUCTION TO TEACHING (3 Units)

This course introduces students to the concepts and issues related to teaching diverse learners in contemporary schools, Kindergarten through grade 12 (K-12). Topics include teaching as a profession and career, historical and philosophical foundations of the American education system, contemporary educational issues, California's content standards and frameworks, and teacher performance standards. In addition to class time, the course requires a minimum of 45 hours of structured fieldwork in K-12 classrooms that represent California's diverse student population, and includes cooperation with at least one carefully selected and campus-approved certificated classroom teacher. Students need to do their observation in a classroom that is in line with their degree plans. Single subject majors (History, Math, English, etc.) need to observe in subject area at high school or junior high. This course requires verification of measles vaccination and pertussis, freedom of tuberculosis, and verification of flu vaccination within the past 12 months.

MECHANIZED AGRICULTURE

MAG 20 EQUIPMENT TECHNICIAN: DIESEL ENGINES, SERVICE FUNDAMENTALS, MACHINE SYSTEMS (11 Units)

This course provides in-depth instruction in diesel engines, service department skills and expectations, and specific instruction on agricultural and construction machines. The design and construction of diesel engines, principles and theories of operation, and disassembly and reassembly of engine components will be covered. Instruction on technical reference materials, parts and service books, computer systems and programs used by the service technician will be covered. Students will also develop skills on the service and operation of various machine and engine systems common to the equipment industry.
