INFORMATION SYSTEMS

- Certificate of Achievement in Information Technology Support

This program provides students with the knowledge, training, and hands-on experience to pursue a career as an Information-Technology Support Technician professional in business, government, or education. Students completing this program of study will be able to enter the workforce with a comprehensive understanding of computer hardware, system software, networking essentials, and needed people skills to maintain their job in a workplace. These courses apply toward the Associate of Science degree in Information Systems.

Program Contact: Jason Boyer • Program Counselor: Steve Jones
